## COMPLETE TIRE MANAGEMENT SOLUTIONS FOR MOTOR HOMES

### Accurate, Reliable and Precise Real-Time Tire Pressure and Temperature Monitoring

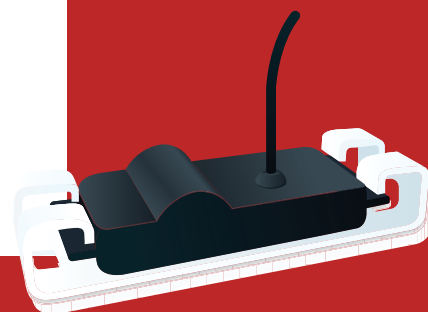

**Keeping An Eye On Your Tires Is The  
Easiest Way To Keep Your Passengers' Safe**

Driving an RV means a lot of responsibility and stress for the driver. That's why we've designed our solution to monitor both tire pressure and tire temperature in real-time. Not only so you can avoid potentially dangerous accidents caused by a blow out, but also stay ahead of regular tire maintenance by detecting leaks. Your passengers are relying on you to get them to their destination safely, with Valor's dependable sensor signal strength and reliable accuracy you can make the educated decisions you need to worry less about your passengers safety, as well as potential repair costs.

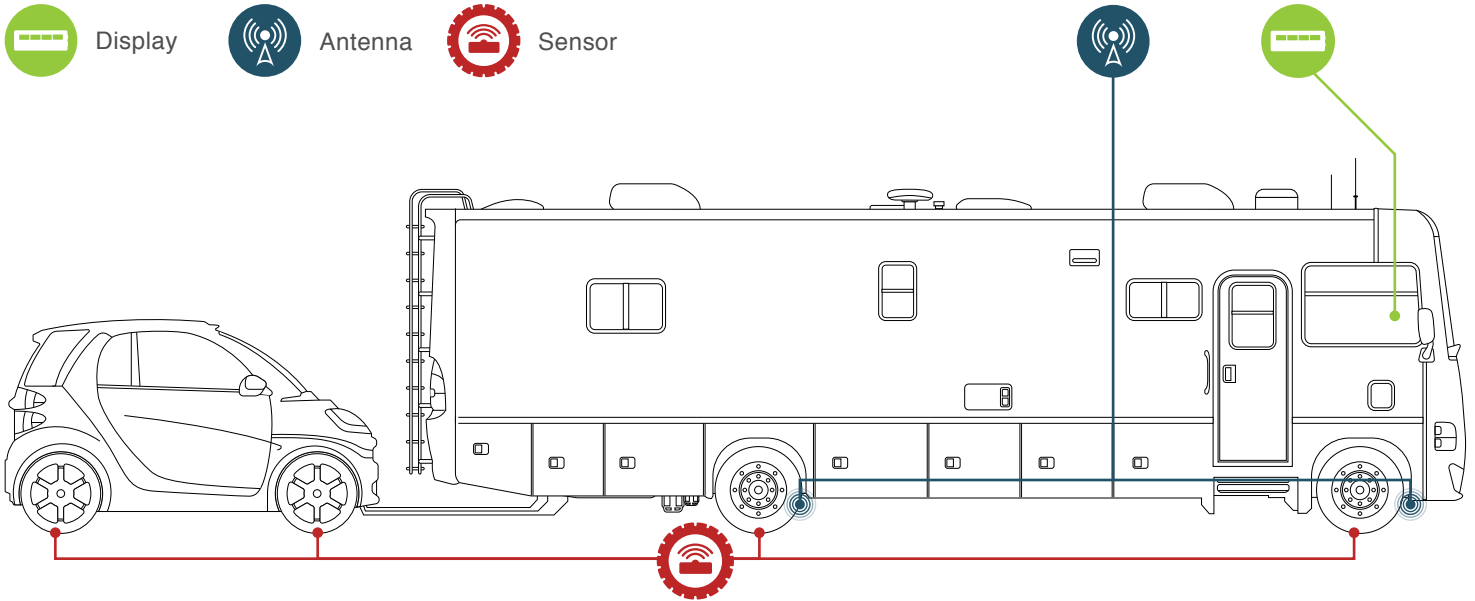

**Instant Real-Time  
Warnings For:**

- High Pressure
- Low Pressure
- Slow / Fast Leakage
- High Temperature (over 175°F)

## Three Simple Components, One Complete Solution.

### How It Works:

#### Sensor

The internally-mounted sensor monitors both your tire's temperature and pressure from the inside-out.

#### Display

Valor's display visualizes tire pressure and temperature data in real-time.

#### Antenna

Antenna receives data wirelessly from the sensors and then transmits into the display.

### Features:

- ▶ Checks both air pressure and temperature
- ▶ Monitors 24 hours a day in real-time
- ▶ Displays individual tire and axle position for an easy-read interface
- ▶ Long lasting battery life (5-7 years)
- ▶ Sensors are installed securely on the wheel rim where they are safe from both damage and theft
