

BORN IN THE MINES, BUILT FOR THE EXTREME.

Can You Spot The Problem? Valor Can.

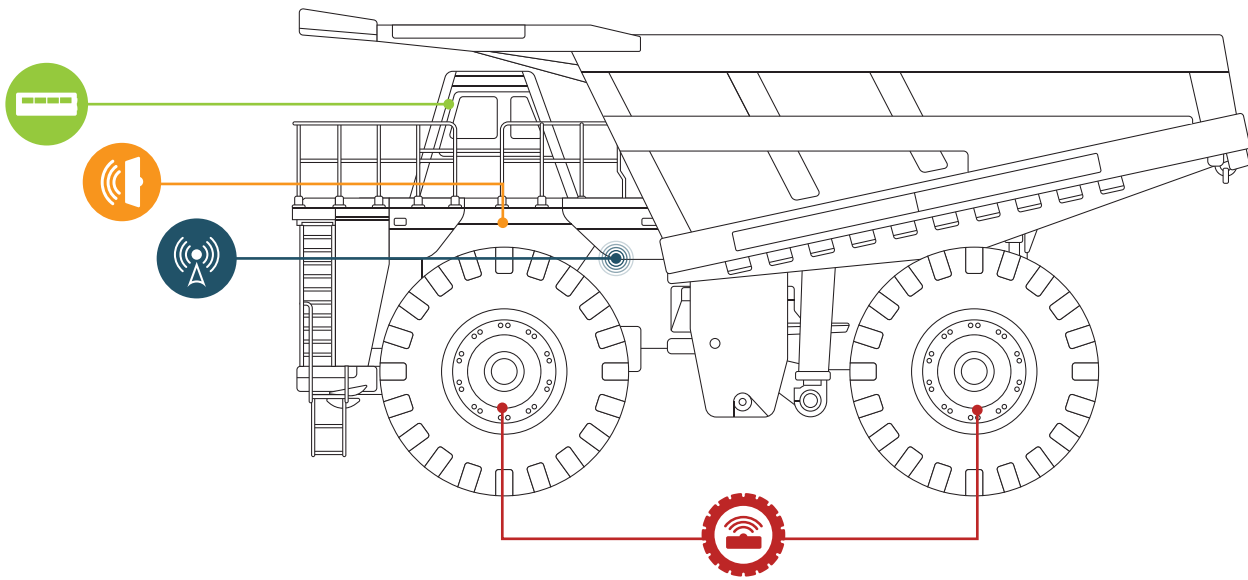

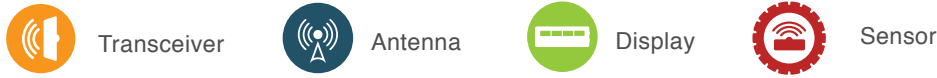

When a tire is under-inflated or over-heated, it is **impossible to see with the naked eye** but can have a profound impact on your business. Undetected it can halt production and cause serious safety issues resulting in lost time and money. The solution? Proactive Tire Management. Monitoring tire pressure and temperature internally with our system will protect your asset, boost safety, and keep production rolling.

Our Extreme Duty Solution

- Proactive tire management
- Robust, precision sensor
- Reliable data transmission
- Predictive analytics
- Individual tire audit trail

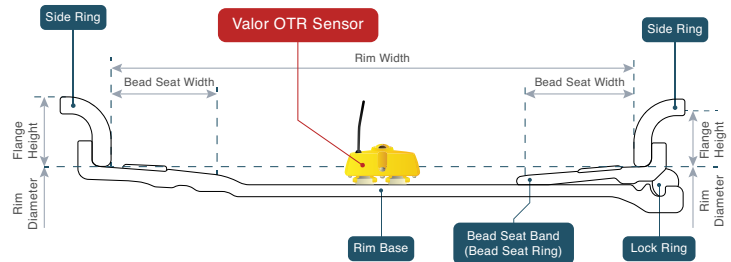

Four Simple Components, One Complete Solution.

With our Liquid-Friendly Magnetic Mount Sensor we work in Demanding Environments where others fail. Robust, Reliable, and Precise. Valor Strong!

Our extreme duty solution is easy to install on multi-piece steel rims and works with all tires sizes.

Features:

- ▶ Checks both air pressure and temperature
- ▶ Monitors 24 hours a day in real-time
- ▶ Displays individual tire and axle position for an easy-read interface
- ▶ Long lasting battery life
- ▶ Sensors are installed securely on the wheel rim where they are safe from both damage and theft
- ▶ Internal data storage
- ▶ J1939 compliant
- ▶ Sensors work with all tire additives
